

Equity Research Stock Pitch

Finance Recruiting Portfolio Project

Project Objective

Bull/base/bear earnings and valuation framework with catalysts, risks and target-price logic.

Core Skills Demonstrated

Financial modeling • analytical judgment • scenario analysis • risk assessment • Excel / presentation skills • clear investment or transaction conclusions.

Recruiting Relevance

Equity research / hedge funds

Interview Talking Point

I built a equity research stock pitch project to demonstrate how I would structure the analysis, identify the key drivers, test downside cases and translate the results into a decision-oriented recommendation.

Important Note

This portfolio project is for educational and recruiting use. Where full market or company datasets are not embedded, assumptions are explicitly illustrative and should not be represented as realized investment performance or actual transaction advice.
