

Commercial Credit Underwriting

Finance Recruiting Portfolio Project

Project Objective

Leverage, coverage, cash flow, covenants and lending recommendation.

Core Skills Demonstrated

Financial modeling • analytical judgment • scenario analysis • risk assessment • Excel / presentation skills • clear investment or transaction conclusions.

Recruiting Relevance

Commercial / corporate banking

Interview Talking Point

I built a commercial credit underwriting project to demonstrate how I would structure the analysis, identify the key drivers, test downside cases and translate the results into a decision-oriented recommendation.

Important Note

This portfolio project is for educational and recruiting use. Where full market or company datasets are not embedded, assumptions are explicitly illustrative and should not be represented as realized investment performance or actual transaction advice.
